

Fresh. Organic. Alberta Grown. Est 2015.

About us

Founded in a college dorm room and named for the roman goddess of agriculture. Ceres started with a mission to make a more delicious and sustainable food system, since then Ceres has grown into one of Western Canada's leading organic specialty mushroom farms.

Ceres has developed a highly reliable production system delivering consistent volumes, stable quality, and dependable weekly supply to retail and foodservice partners.

Why Buyers Switch to Ceres

Fresher product → longer shelf life & sales window
Local supply → fewer disruptions & weekly delivery
Organic & GFSI certified → retail ready compliance
11 years operation → the prairies' most experienced specialty mushroom farm

**Many of our customers
see an increase in their
weekly mushroom sales
after switching to Ceres.
Some as much as 190%!**

Stats:

- ✓ 11,000 lb / week capacity
- ✓ 365 days / year harvest
- ✓ 100% organic production
- ✓ 100% local workforce
- ✓ 4 mushroom varieties
- ✓ 11 years of operation

Certifications:

Fresh. Organic. Alberta Grown. Est 2015.

Meet the mushrooms

We cultivate four unique varieties of specialty mushrooms indoors, 365 days a year. All our mushrooms are trimmed prior to packaging and covered with a printed kraft paper sheet, so every box is retail, repack or processing ready. There is no need to wash our mushrooms prior to use.

Organic Shiitake

Rich, smoky flavor with a firm, meaty texture, ideal for foodservice and retail. 1.25"-2" caps or >2" caps available. Substrate trimmed, with stem.

Organic Oyster

Delicate, versatile mushrooms with a mild, savory flavor and velvety texture. Harvested in clusters with substrate trimmed.

Organic Lion's Mane

Mild and lightly sweet with a tender, seafood-like texture. Makes an excellent meat substitute. >2.5" with substrate trimmed.

Organic Chestnut

Nutty and savory with a firm bite. Use whole or sliced in sautés, soups and roasted dishes. Harvested in clusters with substrate trimmed.
